

CSE332 - Operating Systems

Lab 4 - Assignment

16 September, 2021

Write a recursive version of the following commands using only system calls

1. `wc`
2. `mv`
3. `stat`
4. `ls`
5. `touch`

Each question has two categories of mark distribution.

- If you write a working non-recursive version, you get maximum 5 marks.
- If you write a working recursive version, you get maximum 10 marks.

Refer `man 2 syscalls` to get a list of all the system calls available
